Old Business

Remote RX for 147.210: Committee (Ron, Steve, Sergii, Joe) update.

Look at 146.79 repeater: Updates?

Repeater Work Day: October 7th, 10AM

Event Reports

A vintage radio receiver, possibly a portable model, is shown in a dark, moody setting. The device features a large, prominent speaker on the left side with a distinctive grille. The main body of the radio is dark-colored with various knobs, buttons, and a digital display. The digital display, located on the right side of the front panel, shows the number "4170.90" in a bright, glowing font. Above the display, there are several small, circular indicators or lights. The overall aesthetic is that of a classic, high-quality electronic device from the mid-20th century.
